

BERRIES POLES

The first and only orchard pole, made of noble steel, for a blueberry and wild berry plant.

Made in collaboration with the best nurserymen and already in use by the largest producers around the world, it represents an excellence without equal.

Sturdy and light, fully equipped and compatible with accessories and automatic management and collection machines.

Forged only with guaranteed Italian steels and galvanized steelworks for the best corrosion resistance.

Accessories:

GRIPPLE **GP1** to tend wire from 1,80 to 3,00mm

Anchors **GPAK 3 plus** to tend end poles

 100 % MADE IN ITALY
