9 x 9	18 Kg	3 x 2,25 - 6 Steel braids

VIBRATE

Our concrete posts for vignards are 100% suitable for the CEE regional contribution

After years of experimentation, the CMC Pali Company has invented a method for the production of concrete poles suitable for mechanized harvesting.

This invention provides the creation of perfectly smooth poles, with two or more rounded edges, so as not to cause problems to the mechanical arms during the collection phase.

OUR CONCRETE POLES ARE AVAILABLE IN THE FOLLOWING TYPES

INTERMEDIATE POLES		
HEIGHT	DIMENSION	WEIGHT
2,50 mt	6 x 5,5 cm	20 Kg
2,80 mt	6 x 5,5 cm	23 Kg
3,00 mt	6 x 5,5 cm	26 Kg
full, with loopholes, with holes		

HEAVY END SMALL		
HEIGHT	DIMENSION	WEIGHT
2,50 mt	7 x 6,5 cm	28 Kg
2,80 mt	7 x 6,5 cm	32 Kg
3,00 mt	7 x 6,5 cm	35 Kg

HEAVY END POLES		
HEIGHT	DIMENSION	WEIGHT
3,00 mt	9,5 x 9 cm	62 Kg
