

## CORTINA POLES **STRONG E PLUS**

The use of **STRONG** and **PLUS** curtain poles offer significant technical and economic advantages:

the type of steel used allows significant reductions in thickness and weight which translate into significant cost savings;  
the excellent corrosion resistance guarantees a high durability over time;  
the color of the rusty pole looks very similar to wood with a low environmental impact.

100 % MADE IN ITALY

### STRONG CORTINA POLES

CODE	DESCRIPTION	THICKNESS MM
CTSZC1	Hot Deep Galvanized	2,20
CTSZC2	Hot Deep Galvanized	2,00
CTSZC3	Hot Deep Galvanized	1,80
CTSCOR1	COR-TEN Steel	2,00
CTSCOR1	COR-TEN Steel	1,80
CTSPZ1	Pre-Galvanized Steel	2,00
CTSPZ1	Pre-Galvanized Steel	1,80

### CORTINA POLES PLUS

CODE	DESCRIPTION	THICKNESS MM
CTPLUSSZC1	Hot Deep Galvanized	2,00
CTPLUSSZC2	Hot Deep Galvanized	1,80
CTPLUSCOR1	COR-TEN Steel	2,00
CTPLUSCOR2	COR-TEN Steel	1,80
CTPLUSPZ1	Pre-Galvanized Steel	1,80
